Kera  
Base

## KERA-BASE

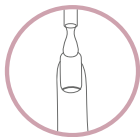

Base Gel Uv/Led con Idrolizzato di cheratina per rinforzare l'unghia naturale. Attiva i legami crociati con la cheratina dell'unghia, con conseguente rafforzamento e coesione della lamina ungueale, inoltre ha un'azione antiossidante rimuovendo i radicali liberi dannosi per l'unghia.

**Base Gel UV / LED with hydrolyzate keratin to strengthen the natural nail. Active crosslinks with the nail keratin, resulting in strengthening and cohesion of the nail plate, also has an antioxidant effect by removing harmful free radicals to the nail.**

*Base Gel UV / LED con queratina hidrolizada para fortalecer la uña natural. Entrecruzamientos activas con la queratina de la uña, lo que resulta en el fortalecimiento y la cohesión de la superficie de la uña, también tiene un efecto antioxidante mediante la eliminación de los radicales libres dañinos a la uña.*

5 ML  
ART. SN3010/KERA  
**EUR 12,50**

### COME SI APPLICA KERA-BASE HOW TO APPLY KERA-BASE COMO APLICAR KERA-BASE

Dopo aver preparato l'unghia naturale, stendere uno strato di Kera-Base.

**After preparing the natural nail, apply a layer of Kera-Base.**

*Después de la preparación de la uña natural, aplicar una capa de Kera - Base.*

Dopo averlo steso e indurito in lampada è sufficiente togliere la dispersione con il Cleanser.

**After stretched and cured in lamp is sufficient to remove the dispersion with Cleanser.**

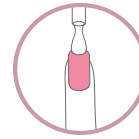

*Después de estirado y endurecido en la lámpara es suficiente para eliminar la dispersión con Cleanser.*

Indurire in lampada Uv per 1 minuto o 30 secondi in lampada Led.

**Curing in the UV lamp for 1 minute or 30 seconds in LED lamp.**

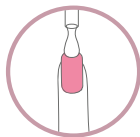

*Endurecer en la lámpara UV para 1 minuto o 30 segundos en lámpara de LED.*

Se volete potete applicare uno strato di smalto.

**If you want you can apply a layer of enamel.**

*Si se desea se puede aplicar una capa de esmalte.*

Stendere successivamente il colore desiderato e proseguire con il Base Coat, Usato da solo dona un colore naturale all'unghia.

**Now spread the color you want and proceed to Base Coat, used alone gives the nail a natural color.**

*Ahora abre el color que desee y procede con Base Coat, utilizado de solo da a la uña un color natural.*

Alien Color sono gli speciali smalti semipermanenti che cambiano colore in base alla temperatura. Indossali per avere sempre un colore nuovo e un effetto stravagante!

**Alien color are the special Gel Polish that change color according to temperature. Wear them to always have a new color and a whimsical effect!**
